

Zhukov Bogdan

Junior / Middle Front-End Developer

Mykolaiv, Ukraine

Professional Summary

Results-driven Front-End Developer with 3+ years of experience specializing in building responsive, modern, and high-performance web interfaces using React and Next.js. Proficient in UI/UX design, creating clean layouts from scratch, and developing full-stack pet projects. Proven track record in plugin ecosystem development and game server logic design. Passionate about writing maintainable code, optimizing performance, and delivering seamless user experiences.

Key Skills

- **Frontend:** JavaScript, TypeScript, React, Next.js, Redux, Zustand, TanStack Query, Axios, HTML5, CSS3, SCSS, Zod, RHF, Tanstack Form, TailwindCSS, ShadCN, Chakra UI, Flowbite UI
- **Design & Tools:** Figma, Git, GitHub
- **Backend:** Supabase, Prisma ORM, Clerk, Ngrok, Rest APIs, Next Auth

Technical Experience

Freelance & Full-Stack Pet Projects

Front-End / Full-Stack Developer & UI/UX Designer

May 2024 – Present

Independently designed, architected, and developed a variety of web applications from scratch, handling the entire lifecycle from prototyping in Figma to frontend implementation and database integration.

- **Drivich-V2:** Developed a comprehensive web application featuring a highly interactive administration panel, robust architecture, and polished UI/UX workflows.
- **Eternal Abyss & Nikey:** Designed and implemented responsive, modern e-commerce/landing interfaces focusing on pixel-perfect layouts and smooth user interactions.
- **Full-Stack Integrations:** Built end-to-end features utilizing Next.js, Supabase for authentication and session management, Tailwind CSS, and ShadCN UI.
- **Core Tasks:** Managed state using Zustand and TanStack Query, engineered reusable component libraries, optimized web performance, and resolved complex architectural bugs.

Rust Game Server Ecosystem

Plugin Developer & UI/UX Concept Designer

2021 – 2024

- Developed custom plugins, core gameplay mechanics, and technical specifications for Rust game servers.
- Created comprehensive UI/UX layout concepts for in-game interfaces and modern web-based shops tailored for server economies.
- Actively participated in technical testing, bug fixing, and continuous feature deployment.
